

2025 IEEE MeditCom Organizing Committee

General Co-Chairs

Hikmet Sari, NJUPT, China
Dirk Slock, EURECOM, France

TPC Co-Chairs

Angela Zhang, Chinese Univ. of Hong Kong, HK
Davide Dardari, University of Bologna, Italy

Workshop Co-Chairs

Guan Gui, NJUPT, China
Marwa Chafii, NYU Abu Dhabi, UAE

Tutorial Co-Chairs

Periklis Chatzimisios, International Hellenistic University, Greece
Mutlu Koca, Bogazici University, Turkey

Panel Co-Chairs

Yan Chen, Huawei, Canada
Emilio Calvanese Strinati, CEA-LETI, France

Keynotes Chair

Stefano Bregni, Politecnico di Milano, Italy

Operations and Finance Chair

Adlen Ksentini, EURECOM, France

Publication Chair

Bouziane Brik, University of Sharjah, UAE

Web & Social Media Chair

Ejder Bastug, Nokia Bell Labs, France

Publicity Co-Chairs

Ranga Rao Venkatesha Prasad, Delft University of Technology, The Netherlands
Eirini Eleni Tsiropoulou, University of New Mexico, USA
Tomoaki Ohtsuki, Keio University, Japan
Nury Gabriela Ramirez Cely, HCL Technologies, Mexico

Senior Conference Planner

Tina Gaerlan, IEEE ComSoc, USA

2025 IEEE International Mediterranean Conference on Communications and Networking

7-10 July 2025 // Nice, France

CALL FOR PAPERS

IEEE MeditCom is the conference of the IEEE Communications Society serving the Mediterranean area and surrounding countries. It gathers visionary researchers in academia and industry from all over the world to the shores of the Mediterranean Sea. IEEE MeditCom 2025 will feature a comprehensive and timely technical program that addresses many of the outstanding challenges in the areas of communications and networking. Submission of original technical papers is solicited on a wide range of research topics encompassing theoretical and applied research in, but not limited to, the following areas:

- 5G/6G Systems and Networks
- Antennas, Propagation, and Channel Modeling
- Big Data and Machine Learning for Communications
- Cloud Communications and Data-Center Networks
- Coding/Decoding Theory and Techniques
- Cognitive Radio and Dynamic Spectrum Access
- Communication and Information Theory
- Edge Computing, Edge Intelligence, and Fog Networks
- Energy Efficient Communications and Computing
- Image, Speech, and Signal Processing for Communications
- Integrated Sensing and Communications
- Internet of Things, Smart Grids, and Vehicular Networks
- Cellular and Cell-Free Massive MIMO
- Millimeter-Wave, Sub-Terahertz, and Terahertz Communications
- 3D Networks: Unmanned Aerial Vehicles and High Altitude Platforms
- Molecular and Nanoscale Communications
- Network Applications, Services, and Management
- Network Architecture, SDN, NFV
- Next-Generation Multiple Access
- Next-Generation Physical, Link, and Network Layers Techniques
- Optical Communications and Networks
- Performance Evaluation, Simulation, Testbeds and Prototypes
- QoE/QoS Support and Cross-Layer Design
- Quantum Communications and Computing
- Reconfigurable Intelligent Surfaces, Holographic MIMO, Wave-Based Processing for Smart Environments
- Satellite and Space Communications
- Security, Privacy, Trust and Blockchain
- Semantic and Goal-Oriented Communications
- Smart Grids and Energy Networks
- Underground and Underwater Communications

IMPORTANT DATES

Submissions Deadline:	3 March 2025
Acceptance Notification:	12 May 2025
Camera-Ready Submission:	26 May 2025
